

Making It Easier!

We are making it easier with the processing of Adjustments, Reallocations, and TPA Fee Payment requests! These are the most common types of requests sent to Plan Management for processing and in an effort to better service you, our Secure Website has been enhanced to so that the first three drop down boxes are Adjustments, Reallocations, and TPA Fees.

You will still be able to select your Plan Manager name from the drop down box to submit other items directly to your assigned Plan Manager. We are confident you will find these changes helpful and allow for more efficient processing!
